

Volunteers Needed!

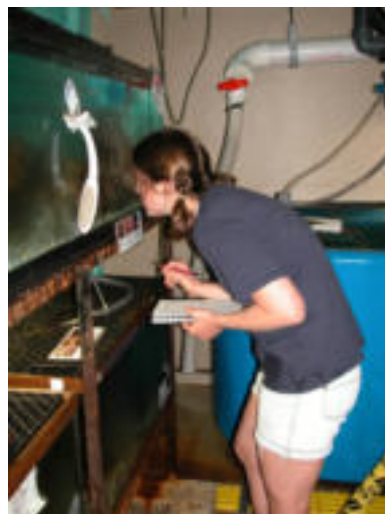

The Woods Hole Science Aquarium

needs volunteers to help take care of the animals. We're looking for people to help prepare food, feed animals, clean tanks, and work with our aquarist on other projects.

Experience is not necessary – we'll train you. You only need to be interested in marine animals and/or aquarium operations, and available for three hours one morning or afternoon per week.

The Woods Hole Science Aquarium displays approximately 140 species of marine animals found in Northeast U.S. waters. The aquarium features an outdoor seal pool, 20 tanks and 15 aquaria with fish and invertebrates, and two touch tanks.

If you are interested, ask to speak with Rachel Metz, or call her at (508) 495-2098 or e-mail: rachel.metz@noaa.gov.
